# INDEX TO VOLUME 51

Figures in bold type indicate whole number: light figures following indicate page number.

A

**Accidents to vessels.**
French "Courbet" has fatal boiler accident, 1924. **263,** 116.

**Administration, U. S. Navy.**
See U. S. Navy *Administration*; U. S. Navy Department; U. S. Navy *Organization.*

**Advertisements.**
Blue ad for 1925 Lucky Bag. Front cover No. **269.**

**Air warfare.**
Allou, Sidney. Limitations of aircraft in naval warfare. **267,** 746.
Beaudreau, J. B. Consequences of the triumph of the Zeppelins. **263,** 117.
Bellinger, J. C. Anti-aircraft defense. **274,** 2383.
Henderson, *Sir* W. H. Airship offensive. **271,** 1756.
Johnson, A. W. Aviation in coast defense. **271,** 1652.
Moffett, W. A. Some aviation fundamentals (Illus.) **272,** 1871.
Wood, F. W. Discussion of "Limitations of aircraft in naval warfare." **271,** 1745.

**Aeronautics.**
Eastex, R. Effect of aircraft on future warships. **263,** 154.
Johnson, A. W. Aviation in coast defense. **271,** 1652.
Sherman, F. Naval aircraft in international law. **274,** 2259.
Standley, W. H. Discussion of "Aviation in coast defense." **271,** 1741.
10th annual report of N.A.C.A. **265,** 493.

**Aircraft.**
Chandler, C de F. Airships for military purposes. **270,** 1531.
Airplane replacements—need for a reserve. **273,** 2196.
British flying boat carries crew of 12. **265,** 461.
Cierva giroplane. **267,** 852.
Civil and military men. **271,** 1769.
Description of Rohrbach all-metal flying boat. **268,** 1076.
Illustration of Rohrbach all-metal flying boat. **268,** 1027.

**Aeronautics.—Cont'd**
Loening amphibian plane successful (Illus.). **267,** 850.
Navy to get long distance flying boat for heavy loads. **263,** 148.
New (1925) British airships. **264,** 328.
New naval air cruiser, PB type, 1925. **264,** 327.

**Bombing.**
*See* Bombing.

**Commercial.**
Commercial air transport. **271,** 1768.
Dr. Eckner on airships in commerce. **264,** 329.
Progress of civil aviation in Europe, 1925. **274,** 2382.

**Dirigibles.**
Henderson, *Sir* W. H. Airship offensive. **271,** 1756.
Russell, *Sir* H. Flying ships. **273,** 2200.
Warlick, W. W. Letter regarding article in Washington **Post** on lighter-than-air aircraft carriers. **269,** 1241.
Airship controversy—1925. **274,** 2361.
Some British views on airships. **274,** 2342.

**Motors.**
Wilson, E. E. Aircraft engine progress. **266,** 657.
Packard engine. **269,** 1288.
"Propulseur trompe" for airplanes. **273,** 2202.
Superchargers. **272,** 1994.
Wright "cyclone" 400-H.P. engine (Illus.). **267,** 855.

**Pilots**
Baldridge, H. A. Aviation at Naval Academy. (Illus.) **271,** 1632.
Davis, R. G. Some physical aspects of flying. **269,** 1225.
Air Ministry's exhibit at Wembly (testing pilots). **271,** 1758.

**Records.**
Arnold, H. H. Performance of future airplanes. **270,** 1522.
Pulitzer trophy races, 1925. **274,** 2379.

**Aeronautics.—Cont'd**

**Round-the-World Flights**

Barker, F. V. How the navy helped them home. (Illus.) **270,** 1415.

**Schools and Training**

Baldridge, H. A. Aviation at Naval Academy (Illus.). **271,** 1632.
Roby, J. J. Naval aviation training. **271,** 1646.

**France**

Progress of aeronautics in France, 1925. **272,** 1977.

**Germany**

Training 2000 pilots. **267,** 826.

**Great Britain**

Air Ministry's exhibits at Wembly. **271,** 1758.
Britain's air force, 1925. **266,** 656.
British airship policy. **268,** 1062.
His Majesty's airships. **267,** 813.
New (1925) British airships. **264,** 328.

**U. S.**

Bingham, H. Commercial airports and airways. **272,** 1990.
Cook, M. G. Proposal for an independent air service. **264,** 215.

Warner, E. P. Air policy for U. S. **267,** 722.
Wilson, E. E. Unified procurement of government aircraft. **272,** 1933.
The aeronautical crisis, 1925. **274,** 2377.
Detroit takes off. **269,** 1286.
Gen. Patrick on independent air force. **270,** 1518.
The Mitchell plan. **274,** 2372.
Personnel of President's Air Board, 1925. **274,** 2370.
Wilbur says Coolidge is opposed to unified air force. **266,** 657.
National air policy. **268,** 1074.

**U. S. Navy**

Baldridge, H. A. Aviation at Naval Academy (Illus.). **271,** 1632.
Cook, M. G. Proposal for an independent air service. **264,** 215.
Fairlamb, G. R. Independent air force. **265,** 381.
McIntyre, M. H. Naval aircraft investigation, 1924. **263,** 145.

**Aeronautics. U. S. Navy.—Cont'd**

Moffett, W. A. Some aviation fundamentals (Illus.). **272,** 1871.
Sherman, F. P. Discussion of "Seagoing aircraft." **263,** 103.
Sherman, F. P. Main battery elevation and fighting aircraft. **266,** 600.
Vroom, G. B. Strategic value of the aircraft carrier. (Illus.) **263,** 78.
Wiley, H. V. Celestial cruise (U. S. airship *Los Angeles*). **266,** 604.
Wilson, E. E. Discussion of "Independent air force." **267,** 807.
Wood, Ralph. Sanity in aviation. **26** 1133.
Extracts from report of Special Boa 1925. **267,** 856.
Million dollar sea plane order plac **265,** 496.
Naval expert urges enormous dirigible (1925). **265,** 481.
Navy plans 300 planes and 5 carrie (1925). **267,** 847.
Navy to have 23 pursuit planes. (1925) **264,** 326.
U. S. Naval air policy centered o planes operating from fleet. **263,** 14

**Air Board, U. S.**

Personnel of. **274,** 2370.

**Air flow.**

*See* Magnus effect; Rotor ship; Wi rotors.

**Airplane carriers.**

Vroom, G. B. Strategic value of th aircraft carrier. (Illus.) **263,** 78.
Warlick, W. W. Letter regarding artic in Washington **Post** on lighter-th air aircraft carriers. **269,** 1241.
British warships carry 80 planes. **2** 616.
New U. S. airplane carriers. **267,** 84
Progress on U. S. airplane carriers. **2** 306.

**Airplane catapult.**

An explosive airplane catapult. **2** 326.
New type catapult. **266,** 674.
Photo of catapult in action. **266,** 6

**"Airplane *vs* battleship."**

*See* Battleship; Aerial warfare.

**Air policy for U. S.**

E. P. Warner. **267,** 722.

**Air whistle.** *See* Whistles.

**Airships.**

*See* Aeronautics. *Dirigibles.*

**Akers, G. W.**

Discussion of "Naval Reserve training" **268,** 1024.

**Alloys.**

High temperature alloys. **265,** 484.

**Allen, E. G.**
Discussion of "Our system of fleet training." **267,** 804.
**Aluminum covered grate-bars.**
Successful experiments with. **269,** 1276.
**America** (*S.S.*).
Photo. **274,** 2238.
**Amphibious warfare.**
Pye, W. S. Joint army and navy operations.
Pt. 1—**262,** 1963
Pt. 2—**263,** 1
Pt. 3—**264,** 233
Pt. 4—**265,** 386
Pt. 5—**266,** 589
Pt. 6—**268,** 975
Russell, *Sir* H. Amphibian operations. **274,** 2403.
**Anti-aircraft defense.**
J. C. Haw. **274,** 2383.
**Anti-aircraft guns.**
Defense against air raids. **267,** 854.
Haw, J. C. Anti-aircraft defense. **274.** 2383.
**Aorangi** (*motor ship*).
Performance of. **271,** 1776.
**Arbitration.**
Brandt, E. S. R. Armament by example and arbitration. **269,** 1152.
**Are you worth it?**
W. E. Brown. **274,** 2328.
**Armament by example and arbitration.**
